UNIFICATION

The ve “C” goal areas (Communication, Cultures, Connections, Comparisons, and Communities) stress the application of learning a language beyond the instructional setting. The goal is to prepare learners to apply the skills and understandings measured by the Standards, to bring a global competence to their future careers and experiences.

The National Standards for Learning Languages have been revised based on what language educators have learned from more than 15 years of implementing the Standards. The guiding principle was to clarify what language learners would do to demonstrate progress on each Standard.
